Definitions and Key
Elements The major street
is typically the intersecting
street with greater traffic
volume, larger
crossâ€•section, and higher
functional class. The minor
street is the intersecting
street likely to have less
traffic volume, smaller
crossâ€•section and lower
functional Chapter 1-4 -
Intersection Design - Road
traffic control devices are

markers, signs and signal
devices used to inform,
guide and control traffic,
including pedestrians,
motor vehicle drivers and
bicyclists. These devices are
usually placed adjacent,
over or along the highways,
roads, traffic facilities and
other public areas that
require traffic control.
