They were numbered D200-D399. They were for a time the pride of the British Rail early diesel fleet. Despite their initial success, by the time the last examples were entering

service they were already being replaced on some top-link duties by more ... British Rail Class 40 - Wikipedia - The British Rail Class 87 is a type of electric locomotive built in 1973â€“75 by British Rail Engineering Limited.Thirty-six of these locomotives were built to work passenger services over the West Coast Main Line (WCML). They were the flagships of British Rail's electric locomotive fleet until the late 1980s, when the Class 90s started to come on stream. British Rail Class 87 - Wikipedia -
