

cardiac catheterization angiography and intervention

Thu, 10 Jan 2019 20:13:00 GMT cardiac catheterization angiography and intervention pdf - Cardiac catheterization (heart cath) is the insertion of a catheter into a chamber or vessel of the heart. This is done both for diagnostic and interventional purposes. Subsets of this technique are mainly coronary catheterization, involving the catheterization of the coronary arteries, and catheterization of cardiac chambers and valves of the cardiac system.
