Thu, 06 Dec 2018 11:01:00 GMT cataloging the world paul otlet pdf - The World Wide Web ("WWW" or simply the "Web") is a global information medium which users can read and write via computers connected to the Internet. The term is often mistakenly used as a synonym for the Internet itself, but the Web is a service that operates over the Internet, just as e-mail also does. The history of the Internet dates back significantly further than that of the World Wide Web. Thu, 06 Dec 2018 08:38:00 GMT History of the World Wide Web - Wikipedia - Among the criticisms raised against this tradition are that human searchers, their interaction with the system, their interpretation of the query, and their process-formed relevance judgments were factors excluded from these experiments.
