09:10:00 GMT checklist of the coleopterous insects pdf

- The family Staphylinidae belongs to the suborder Polyphaga of the order Coleoptera (beetles). The superfamily Staphylinoidea includes the small families Hydraenidae, Ptiliidae, Agyrtidae, Leiodidae, and Silphidae, and the huge family Staphylinidae.

SUBORDER Polyphaga - SUPERFAMILY

Staphylinoidea ... rove beetles - Staphylinidae -

UF/IFAS - University of ...

- Summary of Invasiveness

Top of page. *A. squamosa*

is a shrub or small tree of American origin. The

species is widely grown as

a commercial fruit tree both

within its native range and

in tropical regions around

the world, and although less

common than other *Annona*

spp., production areas are

increasing. The species is

listed as "cultivation

escape, naturalised,

weed" in the Global

Compendium ... *Annona*

squamosa (sugar apple) -
