GMT coastal estuarial and harbour engineers pdf - The harbour defence motor launch (HDML) was a British small motor vessel of the Second World War.. The HDML was designed by W J Holt at the Admiralty in early 1939. During the war, 464 HDMLs were constructed, mainly by yacht builders, in the United Kingdom and a number of other allied countries. In view of their later expanded combat roles in some Commonwealth navies some HDMLs were re ... Harbour Defence Motor Launch - Wikipedia - The 1928 Thames flood was a disastrous flood of the River Thames that affected much of riverside London on 7 January 1928, as well as places further downriver. Fourteen people died and thousands were made homeless when flood waters poured over the top of the Thames Embankment and part of the Chelsea Embankment collapsed. It was the last major flood to affect central London, and, particularly ... 1928 Thames flood - Wikipedia -
