

Fri, 07 Dec 2018 06:49:00 GMT economics of monetary union by pdf - An economic and monetary union is a type of trade bloc which is composed of an economic union (common market and customs union) with a monetary union. It is to be distinguished from a mere monetary union (e.g. the Latin Monetary Union in the 19th century), which does not involve a common market. This is the sixth stage of economic integration. EMU is established through a currency-related trade ...
