GMT microeconomics david besanko 4th edition pdf - A monopoly (from Greek $\mu\acute{o}\nu\omicron\varsigma$ ["alone" or "single"] and $\pi\acute{\upsilon}\lambda\lambda\omicron\varsigma$ ["to sell"]) exists when a specific person or enterprise is the only supplier of a particular commodity. This contrasts with a monopsony which relates to a single entity's control of a market to purchase a good or service, and with oligopoly which consists of a few sellers dominating a market.

Monopoly - Wikipedia - Capitalism is an economic system based on the private ownership of the means of production and their operation for profit. Characteristics central to capitalism include private property, capital accumulation, wage labor, voluntary exchange, a price system, and competitive markets. In a capitalist market economy, decision-making and investment are determined by every owner of wealth, property ... Capitalism - Wikipedia -
