Fri, 07 Dec 2018 21:37:00 GMT Lightning-Season Burning: Friend or Foe of Breeding Birds? - Plant breeding started with sedentary agriculture, particularly the domestication of the first agricultural plants, a practice which is estimated to date back 9,000 to 11,000 years. Initially, early

human farmers selected food plants with particular desirable characteristics and used these as a seed source for subsequent generations, resulting in an accumulation of characteristics over time.
Wed, 05 Dec 2018 05:18:00 GMT History of plant breeding - Wikipedia - Indeed, dog breeding can be done in two different ways: naturally "let the dogs mate whoever they want, when they want; selectively "decide that this dog will breed that dog for our own human reasons; Selective breeding in dogs simply means the partners are selected by the breeder who will make sure both dogs will mate together. There are often a reason why a breeder wants these two dogs ...
