Abstract: Skin adnexal neoplasms are uncommon and are daunting diagnostic problems in view of the wide spectrum of lesions and their variants. Benign adnexal neoplasms are more common than malignant lesions. Aim: To study histopathology of skin adnexal neoplasms and to correlate with the clinical profile. IOSR - A solar cell, or photovoltaic cell, is an electrical device that converts the energy of light directly into electricity by the photovoltaic effect, which is a physical and chemical phenomenon. It is a form of photoelectric cell, defined as a device whose electrical characteristics, such as current, voltage, or resistance, vary when exposed to light. Solar cell - Wikipedia -
